**COMMENT ON THE SITUATION.**

The whirling campaign of the German Allies in Galicia is largely

pretended to mean that once having cleared the country of Russians, they will turn their energies on the Italians.

Heavy fighting in France is reported by Berlin and Paris in dispatches that contradict each other in everything.

That the Germans have been most violent. The warfare on the Gallipoli Peninsula has developed a deadlock, i.e., trench fighting. In spite of the fact that England yesterday voted a huge war loan, Washington is optimistic that the plans of neutrality to end the war soon will prevail.

Mr. Nelson O'Shaughnessy will be

relied on by the Wilson administration to bring the Mexicans to terms with themselves and with the outside world.

It is just now that he has been called back from Vienna for that express purpose.

Nelson O'Shaughnessy,  
Who will be sent to Mexico by President Wilson to reconcile the Carranzistas and the Villistas in the programme of Mr. Wilson to re-establish law and order in Mexico. Mr. O'Shaughnessy has been called in from his diplomatic post in Vienna to undertake the new mission in Mexico.

Red Cross headquarters has received confirmation of the report that Villa has reversed the orders of Gen. Hernández and will permit the food to go in.

Persons close to the President expressed doubt today whether Villa's proposal to Carranza for a "peace conference" would be accepted. Officialdom was extremely hopeful, also optimistic, that negotiations in some form would be entered into by the opposing factions, even if not in the form suggested by Villa.

Considerable time in today's Cabinet meeting was devoted to discussing the Mexican problem in all its angles. One report is that the administration

## CHINESE HOSPITAL CHAIN TO BE RUN BY AMERICANS.

*Rockefeller Foundation Purchases Institution at Peking and Three Eminent Physicians will Sail from San Francisco in August to Begin Further Development of the Work—Big Appropriations.*

[BY A. P. NIGHT WIRE.]

NEW YORK, June 15.—In furtherance of its plan to spread over China a chain of American hospitals to be managed by American surgeons with a view to improving the medical and hospital conditions in the republic, the Rockefeller Foundation here tonight announced that it had purchased the Union Medical College at Peking and that about August 1 next three eminent physicians will sail from San Francisco for China, to come to take over the institution and further develop the work.

The three physicians are members of the China medical board, established by the foundation to carry out the numerous recommendations of a special commission which made a first-hand study last year of the health and medical work in China.

They are Dr. Wallace Buttrick, director of the China medical board and secretary of the general education board; Dr. Simon Flexner, director of laboratories of the Rockefeller In-

stitute for Medical Research, and Dr. William H. Welch, professor of pathology at the Johns Hopkins University.

The Union Medical College, it was announced, was purchased for \$200,000 from the London Missionary Society, a Congregational institution.

Independent of the acquisition of the Peking college, the announcement says that the board "had appropriated \$15,000 a year for five years to the Yale Medical College at Chang Sha."

"It has appropriated \$15,000 for one year to the Harvard Medical School at Shanghai."

"It has appropriated similar sums to several other hospitals."

"It has appointed six fellow-Chinese graduates in medicine—to study in this country. Three are here now, three are on their way to this country. It has awarded several fellowships to Chinese medical missionaries here now on further studies."

"It has established ten scholarships for Chinese women to be trained as nurses. Three have so far been appointed."

## BUYER OF AMMUNITION A RED CROSS WORKER.

*Sensational Allegations in New York that Bryan as Secretary of State Gave Safe Conduct to a Priva Councillor When He Accommodated Von Bernstorff's Special Messenger.*

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

NEW YORK BUREAU OF THE TIMES, June 15.—The New York Tribune will say tomorrow: Dr. Anton Meyer-Gerhard, "German Red Cross lecturer," and Count von Bernstorff's special envoy to the imperial government, who landed today in Christiania, Norway, has perpetrated a gigantic hoax on the State Department of the United States, according to evidence now in the hands of the Tribune. He is none other than Dr. Alfred Meyer, Privy Councillor of the first rank, chief of the department of army supplies of the Imperial German Ministry of War.

The real Dr. Anton Meyer-Gerhard has not been out of Germany since the beginning of the war and has been reported among the wounded on the east front. His name was assumed by Dr. Meyer and the protecting mantle of the Red Cross thrown about him that his identity and true mission to the United States might not become known to those outside Germany or abroad.

His much-advertised Red Cross propaganda was a farce. He came here to purchase such war supplies as he could obtain militarily to insure the condition of military men in the service of the allies. The alliance of the Red Cross with the State Department before the war is now known to all.

And so the doctor fitted from lectures in behalf of the Red Cross to secret conferences with great speed and much caution. The greatest discretion was exercised in arranging various meetings that took place. Telephone calls were made from public stations. Dr. Meyer lived at the Ritz Hotel only intermittently, and never registered his first appearance there. His other address was given to less than four people, and each conference with him was attended by an amazing amount of preliminaries.

## TO MEET HOUSE AT CORNISH, N. H.

*WILSON EXPECTS TO HEAR THE LATEST FROM EUROPE.*

President will listen to statement of conditions on the Continent gathered at first hand from officials of Germany, Great Britain and France.

[BY A. P. NIGHT WIRE.]

WASHINGTON, June 15.—Col. E. M. House, who recently returned from a trip to Europe, where he talked with high officials of several of the belligerent nations, is not expected to come to Washington this week, as has been announced. He probably will see the President during the latter's trip to the "summer White House" at Cornish, N. H., to spend Independence Day.

The President plans to leave for Cornish Friday or Saturday of next week unless unforeseen events prevent.

He is expected to stop over in New York to see Col. House or invite the colonel to Cornish.

Official continuing tonight to deny that there was any especial significance in Col. House's trip to Europe, but it was generally admitted that first-hand information gained by him from the officials in Germany, France and Russia would prove interesting to the President. When they see each other Col. House will supplement the reports or "letters" he has already forwarded to the President describing sentiment on various questions among the high officials of the nations he has visited.

CEMENT COMPANIES IN GREAT MERGER.

EDWARD M. HAGAR FORMS A COMBINATION OF EASTERN CONCERN.

[BY A. P. NIGHT WIRE.]

CHICAGO, June 15.—Details of a \$20,000,000 merger of cement manufacturing concerns, which Edward M. Hagar has been quietly organizing for the last four months, were announced here today. Mr. Hagar retired from the president of the U.S. Portland Cement Company, controlled by the United States Steel Corporation in order to effect the merger.

The company will be the Hagar Portland cement company.

Mr. Hagar will be the president and Dr. J. W. Dickey, vice-president. The new company, it is said, will operate a chain of plants extending from the Atlantic seaboard to the Rocky mountains.

The scheme worked perfectly, and

the State Department apparently has not had the slightest suspicion that Dr. Meyer-Gerhard was not Dr. Meyer.

The Washington office did not issue a safe conduct guarantee, in the case of Dr. Dernher.

But there are said to be many who have made it plain that they would not interfere with an accredited representative of the Red Cross.

The small, white, good-looking man knew all about it, recognizing that if the truth of his excellency's identity and business fell into the hands of the allies it would prove fatal to the success of the enterprise.

The alliance of the Red Cross with the State Department before the war is now known to all.

*Conference of the Powers Suggested to Offer Terms to the Belligerents.*

*American Consul-General at Rotterdam Delivers to the President Information from American Minister Van Dyke Which may Have an Important Bearing on the Immediate Developments in Europe.*

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

WASHINGTON BUREAU OF THE TIMES, June 15.—Peace talk fills the air in official and diplomatic circles the chief topic of speculation is furnished by the multiplying rumors that a termination of the great war is impending. Whether there is any real basis for these reports is a question.

Among the developments in connection with the talk of peace today were the following:

President Wilson pronounced untrue the Berlin news dispatch accusing the United States of blocking the mediation efforts of neutral powers.

The President received Col. Soren Listoe, American Consul-General at Rotterdam, who brought a message from Dr. Van Dyke, American Minister to the Netherlands, reported to have a bearing upon a neutral movement toward peace.

The President received a memorial from a committee of citizens which is inviting all neutral powers to meet in conference for the purpose of formulating a plan of peace proposals to the belligerents.

Neither the President nor Consul-General Listoe would discuss the message from Minister Van Dyke which the Consul-General came to this country for the special purpose of delivering to the White House. Cable advised from Berlin on Sunday that several neutral powers were making plans to call a conference to discuss the advisability of urging the belligerents to come to terms that would end the war. Col. Listoe told the President the views of the Netherlands government as communicated to Minister Van Dyke, up-

to-the-memorial says:

"We, the undersigned citizens of the United States, holding all shades of opinion with regard to the merits of the present conflict, do hereby fervently pray that you will use the great influence of your respective governments with the governments of the nations at war to persuade them to appoint delegates to a continuous conference, whereas terms and conditions leading toward peace shall be discussed until peace is established, or until a formal peace conference is organized."

Appended to this note are the names of Charles L. Bernstein, William Bergman, Maurice A. Morris, all of New York; Robert Myrick, Springfield, Mass.; G. W. Woodward, Washington, D. C.; William J. Scheele, J. D. Dickey, J. P. Meyer, Park S. Bell, William E. Johnson, all of Boston; Representative Herman A. Metz, Antonio A. Raven, F. W. Waltz and Carroll Livingston Kyker of New York.

*Attempt of the Allies to Break Through the Lines Between Lievin and Arras Meets with Failure—Russian Forces South of the Przemysl-Lemberg Railway Have been Forced to Retreat.*

(BY ATLANTIC CABLE AND A. P.)

PARIS, June 15.—The following official communication was issued by the French War Office tonight:

"In retaliation for the bombardment by the enemy of open French and English towns, the order was given to bombard the morning of the capital of the Grand Duchy of Baden."

"At 3 o'clock in the morning twenty-three aeroplanes set out for Karlsruhe."

"Although caught by a northeast wind they arrived over the town between 3:15 and 4 o'clock. They dropped 120 projectiles of 50 and 155 calibre on the objects which had been indicated to them, particularly the chateau, an arms manufactory and the station. A great number of fires broke out during the time the aeroplanes were flying over Karlsruhe. A serious panic was observed in the station, from which trains departed hastily, proceeding in an easterly direction."

"The machines were subjected to a violent gun fire, particularly on their outer trip, at Saverne (Sarre), Strasbourg, Rastatt and Karlsruhe, and on their return at Blamont, Phalsbourg (Pfalzburg) and Saarbruck. All of them returned except two."

"During the course of last night local infantry actions developed in the region to the north of Arras—in the sectors of Lorette and Neuville—and to the south of Arras, near the Touquet farm. All the German counter-attacks were repulsed, and we have maintained our gains."

"To the north of Neuville we have taken possession of several German local posts."

"Today has been marked in these two regions only by an artillery combat; our batteries have violently shelled the German trenches."

"The attack by the enemy on the night of June 14-15, against the village of Tracy-le-Mont, east of Quennerie, was carried out by eight battalions. Prisoners declare that the losses to the enemy were considerable."

"On the rest of the front there is nothing to report."

## FRENCH SUFFER DEFEAT; FAIL TO BREAK LINES.

(BY ATLANTIC CABLE AND A. P.)

BERLIN, June 15 (via London).—At army headquarters today the following announcement was made:

"Western theater of war: The French yesterday suffered a fresh defeat. In spite of the heavy losses they sustained on July 13, they continued with great stubbornness the attempts to break through the line between Lievin and Arras. The French attack, which was carried out with large forces in close formation, broke down in the places where the British losses under the fire of our troops."

"Northwest of Moulin-Rouge-Touvent we have not yet succeeded in regaining portions of the trenches lost by us on the 6th inst. In Champagne, north of Verdun, and in Meuse, fighting continues, but the enemy is unable to gain an advantage."

"Yesterday the open town of Karlsruhe, which is far from the theater of operations and not in any way fortified, was attacked with bombs dropped by an airship. So far as is now known, some eleven citizens were killed and six injured. Military damage could not have been caused."

"One aircraft of the enemy was brought down by one of our military airmen and the occupant was killed. The airmen, however, was obliged to land near Schleimack."

## AUSTRIA AIDING SERVIA IN HER ALBANIAN PLAN?

(BY ATLANTIC CABLE AND A. P.)

ROME, June 15 (via Chiasso and Paris).—According to reports received by the Italian General Staff, Austria is indirectly encouraging Servia in her Albanian plan, the nature of which is indicated by the recent incursion of Servian troops into that country. It is reported here that Servia and Greece have reached an agreement respecting the partition of Albania, trusting, once it is accomplished, that it will be ratified by the peace conference.

What appears unusual in the situation is that Austria, whose ultimatum to Servia resulted in the war, instead of seizing the present opportunity to resume the offensive against Belgrade, on that part of the Servian troops engaged in Albania, has removed

**British Ambassador Recites the Frequency of Zeppelin Attacks, Declares City is Practically Unfortified, that Many Americans and Other Foreigners are Placed in Danger, but He Makes no Request for a Protest.**

(BY A. P. NIGHT WIRE.)

WASHINGTON, June 15.—Germany's Ambassador also pointed out that a large number of Americans and other non-English people are resident in London and that located there are the foreign embassies and legations and many hospitals and charitable institutions, all of which are greatly endangered by the Zeppelin attacks.

"The history of the last two days shows that the enemy is increasing."

"The Russian forces south of the Przemysl-Lemberg Railroad have been forced to retreat. The troops of Gen. von Marwitz yesterday took Mysliski. The right wing of the army of Gen. von Linsingen advanced to the heights west of Sokol. Our cavalry reached the district south of Mariampol."

After referring to the growing frequency of raids in sections of London by hostile aeronauts, Sir Cecil declared that the great city practically was unfortified, absolutely so as far as the residential sections were concerned.

"Millions of people were crowded in the residential sections," he said, "and it would be impossible for British artillerymen to defend these sections against aeroplane or Zeppelin attacks because shells sent into the sky towards aircraft almost certainly would work great destruction of life when man airmen."

**Strong Russian Forces are Defending the Bridge Head at Mikolajow—Attempts of Italians to Approach Austrian Positions Near Tolmino and Plava Have Failed—Fighting on Tyrolean Frontier.**

(BY ATLANTIC CABLE AND A. P.)

VIEENNA (via London) June 15.—The following official communication was issued today:

"There is heavy fighting along the entire Galician front."

"The army of Archduke Joseph Ferdinand, after the capture of Sieniawa,

on the east bank of the San, has advanced in a northern and northeastern direction. The castle and farm of Jaroslow were stormed yesterday and numerous prisoners captured."

"Fighting heavily, the army of Gen. Mackensen is advancing on both sides of Krakowiec (southeast of Jaroslow) and toward Oleszce (northeast of Jaroslow.)

"Southeast of Mosciska, the troops of Gen. Boehm-Ermoli are attacking fresh positions holding the road to Grodno (on the railroad between Mosciska and Lemberg.)

"On the upper Dniester strong Russian forces are defending the bridge head at Mikolajow against the advancing allies under Gen. Linsingen, while further westward the forces of Gen. Pflanzer and Gen. Ballin are standing before Nizmow (south of Mariampol) and Czernowica, maintaining the captured town of Zale Szczycy against all Russian attacks."

"Fighting furiously, the Russian troops making a stand between the Dniester and the Pruth Rivers to retreat, driving them toward Chotin and along the Pruth."

The number of prisoners taken in Galicia on June 12 has been increased by several thousand."

"Italian war theater: Renewed attempts of the Italians to approach our positions have failed. Yesterday at some point on the Isonzo front quiet prevailed."

JEFFERSON CITY (Mo.) June 15.—Gov. Major of Missouri today filed an information in the State Supreme Court against twenty-eight companies alleged to be interested in the purchase of zinc ore in the Missouri district, citing bad reasons for believing them to be in an unlawful combination to regulate prices.

lain on the lips of thousands of reasoning Germans."

The Vossische Zeitung comments as follows on the arrest in Cincinnati of Heinz Hardenberg, said to be a member of the German aviation corps, in connection with the investigation of the Lusitania disaster by the Federal grand jury in New York:

"It is decidedly a remarkable manner of conducting an investigation that persons who make statements varying from those of American port officials should be intimidated by arrest on suspicion of perjury."

The Tagliche Rundschau, speaking of the arrest of Gustav Stahl in the same case, and declared the Hardenberg incident is astonishing. "One is justified in asking if there is a system in the world to capture the German officials."

This paper remarks, "whether it is a plan to shut the mouths of, or render suspicious in advance, those witnesses who testify to an alliance between Germany and America, which permitted the armed Luisitania to leave port, in any event this interpretation of witnesses demands our full attention."

The Kreuz Zeitung publishes in the following communication defending the sinking of the Lusitania and submarine warfare generally. It says no international law in existence prohibits the course pursued, and insists the Luisitania was armed.

"This may be considered as proved," the article continues, "and it is not even partially refuted by any general reference to the American official investigation."

In introducing the measure, Premier Asquith remarked that from April 1 to June 12 the expenditure had been at the rate of \$2,660,000,000 daily.

"He estimated that the total daily expenditure during the currency of the new credit would not be less than \$2,000,000 for the reason that as the war extended its area Great Britain's financial obligation to the allies would increase."

UNWILLING TASK.

In a general survey of the situation, the Premier referred to the construction of the government. He declared he would not have been justified in taking the course he did in this regard under the pressure of outside influence, or because of temporary embarrassment. The task was as unenviable as could fall to the lot of any man."

After paying a tribute to his late colleagues, Mr. Asquith claimed for himself and his new colleagues the staunch adherence of their respective political parties. He admitted the word coalition had not been a pleasant flavor in the vocabulary of British politics. Up to the last moment he had not been without doubt as to how he could best respond to the call of his party.

The situation was without parallel in our history," the Premier said.

WAR TO THE END.

"The demand which it would make upon the energies of the nation and upon the patience and foresight of the government and the confidence felt by the one in the other, could not be met by any man in his senses. But our national policy remains unchanged to pursue this war at any cost to a victorious issue."

Mr. Asquith said he had decided slowly and reluctantly but in the end without any loss of heart that this was necessary.

Speaking particularly of a peace meeting to be held next week in Philadelphia, Mr. Asquith said it was called for the purpose of finding some means to make war less profitable. It was not called, he said, for the purpose of trying to end the present war, but of discussing an international treaty which may be made at the conclusion of hostilities.

"I hope many people object to the meeting to be held next week in Philadelphia, but I feel that if we can give the peace party, which always exists in every country, a practical means of settlement without blood, we shall have gone far toward international peace."

"The declaration of war has been issued by the British government had been followed in the last few months by several defeats both in minor courts and in the Supreme Court. So far as the civil section of the law is concerned, the government looks upon the suit to dissolve the International Harvester Company as of the utmost importance. This case is now in the hands of the Supreme Court. The principal case involving the criminal end of the Sherman law now before the court is against officers and directors of the New York, New Haven and Hartford Railroad.

"If the harvester suit finally lost, it will virtually become a dead letter and the government in the future may depend upon the Clayton anti-trust act to curb unlawful practices in business.

"THE CASH REGISTER CASE.

"The refusal of the Supreme Court yesterday to grant a writ of certiorari for a review of the reversal of the conviction of the officers of the National Cash Register Company may have some influence on the course to follow in the future in respect to criminal actions. Officials of the company have had little confidence that the Supreme Court would grant this writ, because of the well-known fact that it is reluctant to deal with criminal cases.

"It was pointed out today that the cash register case and that against the directors of the New Haven are essentially different and that a failure in one would have no effect on the outcome of the other.

"Department officials say that the New Haven defendants charge acts such as have become before the Supreme Court in many cases and have proved to be unlawful.

"At the department it was declared that the government's suits toward business combinations had been misunderstood since the recent decision of the lower courts in the civil anti-trust case against the United States Steel Corporation. The department was said, was not proceeding against combinations because of their size alone.

WASHINGTON, June 15.—President Wilson today reappointed for a term of four years Ellsworth P. Bertholf as captain commandant of the United States coast guard.

Oddly enough, when I last wrote, Mr. Wilson had just appointed him to the same office, and I have heard, "I hardly think it possible that he should re-serve." The reason is that he has been serving in the house. We do not have a piano in the house. We have \$25.00 in music room. Better, call at the shop.

WASHINGTON, June 15.—Manuel Vasquez Tagle, Minister of Justice in Cabinet of Madero, will be Pushed for Provisional Head of the Republic Should Peace be Patched up with Carranza.

President Wilson told callers he believed the situation was shaping more definitely in his favor, but did not reveal the administration's plans. Efforts of the Villa-Zapata element to make peace with their former allies, the Carranza faction, are attracting the attention of officials, but so far as is known no pressure is being exerted by the United States to force the attitude of passive observation of developments being maintained for Mexican service.

Efforts of the Villa-Zapata element to make peace with their former allies, the Carranza faction, are attracting the attention of officials, but so far as is known no pressure is being exerted by the United States to force the attitude of passive observation of developments being maintained for Mexican service.

Manuel Bonilla, who was Minister of Communications in the Cabinet of Madero and former Governor of Sinaloa, has been a statesman of some note, but has been much discredited recently, because he has been desirous of a reconciliation, not only to the president, but to one who could be brought into a continuation of the Carranza party.

Dr. Gay said he hoped to find the new remedy to effect cure within a week in fifty per cent of cases treated. His experiments in local cases, he said, showed over thirty-five per cent of them to be ten days. In some cases there was no response.

He said the case of this year was an elementary state but that it had been demonstrated. He was to perform a "cure" over brief time. Cases of typhoid ordinarily last five to six weeks.

Immunity from typhoid, however, was said to be effected only by "immunity serum," which, by Dr. Nichols of San Francisco, "magic vaccine" he declared must be used in vaccination.

Discussion of immunization by several speakers resulted in agreement that certain specific methods of anti-toxin methods at present were:

Special Delegate from Germany says Method of Serum Treatment Performed by Himself and His Colleagues has Proved Efficient in Treating Disease.

BY A. P. NIGHT WIRE.]

SEATTLE (Wash.) June 15.—Enrico Castelli, special delegate of the Faculty of Medicine of Italy, to the medical profession of the United States, announced at a meeting of the Pathological Study and Prevention of Tuberculosis, a method of serum treatment for tuberculosis, perfected by him and his colleagues here. He stated that he was able to determine the amount of tuberculous infection in the body of the patient, and that the degree of immunity against tuberculosis can be introduced into the body by the injection of the serum. He predicted that in less than two years time immunity from tuberculosis would be as thorough as that in the case of smallpox.

He said: "As part of our work, we have adopted an agency to Protestant missionary work, and the following programme: An extensive network of serum diagnosis and dispensaries, and private and public clinics, to secure earlier recognition of tuberculosis.

"(2) Compulsory vaccination under 6 months of age, to secure immunity from tuberculosis.

"(3) Advising women who are about to give birth to children, to take a course of milk for exclusive supply to adults showing evidence of tuberculosis.

"(4) Establishments and clinics supporting the work of the National Tuberculosis Association.

## To Regain a Healthy, Girlish Complexion

If you would have a clear, fresh, girlish complexion, one ounce of certain mercurized wax will aid you in this direction. Mercurized wax does not irritate, it produces a natural beauty. This wax, procurable at any drug store, completely removes dead, coarse, impervious, healthy young skin underneath. This work is done so gradually, day by day, that no one need fear any damage. This is applied at night like cold cream, and removed in the morning with soap and water. Another use for this wax—this for wrinkles—is to bathe your face in a solution of powdered sandalwood. One ounce of sandalwood to four ounces of water. This will remove wrinkles. This is a remarkable action in smoothing out the lines and "firming up" the loose tissue.

## OPIUM CHARGES FAIL; BOARD IS EXONERATED.

John F. Neelan, Deacon that There was no Bribery of Members or Their Inspectors and Frederick A. Sutherland, Who Started the Trouble, will Probably be Discharged Today for Insubordination.

(BY A. P. NIGHT WIRE)

AN FRANCISCO, June 15.—John Neelan, president of the State Board of Control, late today, at the end of the hearing in the investigation of alleged protected opium traffic in San Francisco, exonerated W. V. White, S. F. Scott and Harry S. Charmak, inspectors of the Hotel Belvedere, known as the "opium queen." Little information, however, was elicited from her. Several police officers were also called. Inspector W. V. White, 8, F. Scott and Harry S. Charmak, inspectors of the State Board of Pharmacy, who were charged by Chief Inspector Frederick A. Sutherland with having accepted bribes for the protection of the illicit traffic.

Neylan, in a dictated statement, also exonerated E. J. Malony, resident member of the Pharmacy Board, and Louis Zeh, secretary of the board, whom Sutherland had charged with failure to prosecute charges against the accused inspectors.

As a result of the investigation Sutherland himself is to lose his position, it was announced. Neylan left Sutherland's fate in the hands of the Pharmacy Board, and James M. Oliver, attorney for the board, announced immediately after the close of the hearing that the charge of insubordination would be heard against Sutherland tomorrow morning and he would be discharged.

NEYLAN SPRINGS SURPRISE. Half an hour before the hearing ended Neylan sprang a surprise by placing on the witness stand J. J. Scott, chief inspector of the board, whom he himself had subpoenaed. Scott followed Chief Inspector Sutherland. Sutherland had testified that he never told Scott that he had any bribe. Scott said he had told him the Pharmacy Board. Scott testified that last March Sutherland came to him and asked for a position as Federal Inspector under the Harrison (poison) Act. He said that at that time Sutherland had stated he wanted to be clothed with the power of a Federal Inspector in order to "get even" with Malony, Zeh and the inspectors whom he subsequently accused. Scott said he refused to give Sutherland a position.

At the conclusion of Scott's testimony Neylan declared a recess of ten minutes and left the room with his stenographer, to whom he dictated a statement, extracted from the record, showing a big increase in the export food products of Holland for Germany.

When he returned, Neylan read the statement.

SCAPE OF STATEMENT. The statement categorically exonerated White, Scott, Charmak, Malony and Zeh and the State Board of Pharmacy, while, whom included J. S. O'Callaghan and George M. Sutherland, resident members of the board, whom Chief Inspector Sutherland also accused, but who were not mentioned in the record. The statement was not read, but it was admitted that he found that the State Board of Pharmacy attempted to prosecute a vigorous investigation of the charges submitted by Sutherland, and that these investigations were hampered and delayed, almost impossible, by the acts of Sutherland, the complainant.

"The men accused in this proceeding," says the statement, "have suffered a peculiar disadvantage. There have been rumors and reports concerning the recent attacks on their integrity. These rumors and reports, the investigation has shown, were based upon the flimsiest foundation.

"As a result of this course the men accused in this proceeding have suffered a peculiar disadvantage. There have been rumors and reports concerning the recent attacks on their integrity. These rumors and reports, the investigation has shown, were based upon the flimsiest foundation.

"The testimony leads me to believe that these charges were not brought in good faith by F. A. Sutherland. Under the law I leave the disposition of his case in the hands of the California State Board of Pharmacy."

TO REPORT TO JOHNSON. Neylan added that upon his return to Sacramento he would submit the report to Gov. Johnson.

The investigation was begun by Neylan on June 2 after Sutherland had written to Gov. Johnson making charges against the members of the Pharmacy Board and inspectors of the board. During the hearings several

testimonies were given by the members of the board and the inspectors.

They stated that on May 12 an attempt was made to assassinate Roque Gonzales Garza on May Twelfth and many were killed in fight with Bodyguard.

EL PASO (Tex.) June 15.—Stories of the wide approval given President Wilson's Mexican note by native and foreign residents in Mexico City; of the activities of the International Committee to relieve food shortage; of foreigners to resist payment of taxes proclaimed by Gen. Alvaro Obregon during his brief occupation of the capital, and of the looting by Mexican soldiers despite guarantees proclaimed by individual commanders, were related here today by Americans who crossed the border after an exciting overland journey from the Mexican capital.

They stated that on May 12 an attempt was made to assassinate Roque Gonzales Garza, then provisional President in Mexico City, and in the fight which ensued twelve Americans were killed by his bodyguard.

The Americans traveled through territory occupied by forces of Gen. Emiliano Zapata, Venustiano Carranza, and Francisco Villa. They found the famine conditions afoot, extending far in widening circles from Mexia City and in the country they traversed crops had not been planted generally. As they passed from the Carranza to the Villa lines, Americans stated that Gen. Villa, upon receipt of President Wilson's note, had withdrawn his forces from Silao eastward to Dolores, Hidalgo, with the main body of his troops at Lagos and Aguascalientes to avoid hostilities pending consideration of the American claim.

Information from the refugees brought by a few American officials who were allowed to land to make their reports, is to the effect that every story told of the starving population in Mexico has been a true one, and that many women and children are dying daily of starvation, not in Mexia City, but in hundreds of the smaller towns of the republic.

Mrs. J. N. Bennett, widow of the engineer of the Freeport Mexican Oil Company, who recently was shot while

wrestled from Carranza again.

ALVESTON Tex., June 15.—Three hundred and ninety refugees of whom 284 are Americans were brought to Galveston today by the United States transport Buford from Vera Cruz, Tampico and Tuxpan. They are comfortably quartered on the ship while she undergoes a five-days' quarantine.

Information from the refugees brought by a few American officials who were allowed to land to make their reports, is to the effect that every story told of the starving population in Mexico has been a true one, and that many women and children are dying daily of starvation, not in Mexia City, but in hundreds of the smaller towns of the republic.

A distinguished traveler aboard is Dr. Su Hsiung-tang of the Chinese Legation in Mexico City, who has been called to Peking on official business.

rowed a boat on the Parana River, is one of the passengers.

Passengers also brought fuller details of the attack by bandits on Tuxpan on June 6, sneaker accounts of which were brought to Galveston June 9, by Capt. Lane of the oil tank ship Wisconsin. According to passengers two men, Jones and Graves, were killed outright. Mrs. Tom Mallard was killed, as was her baby boy, in her arms. Her husband was shot through the side and is yet alive, though his arm is dislocated.

No arrangements for funds to care for those of the refugees who may be destitute have been made. The government's responsibility will end when the passengers are landed at Galveston.

A distinguished traveler aboard is Dr. Su Hsiung-tang of the Chinese Legation in Mexico City, who has been called to Peking on official business.

Dr. E. R. Sherman of Cincinnati, O., challenging the statement of the declaration that he had tried the remedy, with the result that 95 per cent of his patients died. He admitted, however, that Dr. Henderson might have some way of mixing the ingredients so as to effect a cure and demanded that Dr. Henderson give him the secret of his knowledge. Dr. Henderson refused to tell his formula.

The remedy as described by Dr. Henderson is produced by the combination of salicylic acid and guaiacol.

## E. W. HOPE, DEAN OF LAW SCHOOL.

FORMER ATTORNEY OF LOS ANGELES HEADS OREGON INSTITUTION.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

WEST POINT (N.Y.) June 15.—Deans of the new law and commerce schools of the university were elected by the board of regents at the annual meeting held today. One Chinaman, K. Wang, reported among the number.

Today entering class is the smallest ever admitted in some years, and there are numerous vacancies in the corps yet unfilled.

E. W. Hope was appointed dean of the law school. Mr. Hope, who comes from Leland Stanford and Charles Hopkins, previously taught in Los Angeles, and has been with the University of Oregon two years.

Dean Hope's faculty will be reinforced next fall by Robert P. Reeder, who is now practicing law in Philadelphia and leading in the universities of Pennsylvania and W. W. Merritt, A.B., University of Min-

nesota.

SWEDISH STEAMER IS TORPEDOED.

(BY ATLANTIC CABLE AND A. P.)

LONDON, June 15.—One Copenhagener dispatch to the Exchange Telegraph Company says the Swedish steamer L. M. Ericsson, bound for Rotterdam, which is being detained at London, was torpedoed yesterday by a German submarine.

The Ericsson sank in 10 minutes.

(BY A. P. NIGHT WIRE)

HALIFAX (N. S.) June 15.—The Norwegian steamer Olaf Kyree, which arrived today in ballast from Shields, reported that she was halted off the English coast by a German submarine.

The Ericsson was captured by a German submarine.

According to Capt. Oscarheim, the submarine bobbed up unexpectedly alongside soon after he left Shields, and he was requested to bring the Ericsson to port.

He said he was received by the German officers with courtesy and after his papers were examined he was allowed to proceed.

The Ericsson will not accept phone or telegram.

**Lacks Pretty Clothes.**

Despondent because she did not have pretty clothing like her girl friends, Elsie Gillispie, 16 years of age, who lives with her parents at No. 544 San Pedro Street, recently attempted to end her life by swallowing poison. At the Receiving Hospital it was discovered that she had swallowed only a small quantity and according to the doctor will recover. After treatment the girl was removed to her home.

**Fro Christian Science Lecture.**

Bicknell Young, C.S.R., of Chicago, member of the board of lecturership of the mother church, the First Church of Christ, Scientist, Boston, will deliver a free lecture on Christian Science Sunday afternoon at 5 o'clock in Shrine Auditorium. It will be under the auspices of the Ninth Church of Christ, Scientist, this city, which issues the invitation.

**Death of Mrs. Newman.**

Mrs. Walter Newman, known on the stage as Bertha Foltz, the daughter of Mrs. Clara Sherriff Foltz, died Monday night at the last of her home, No. 153 South Normandie. She suffered a relapse from the effects of an operation two months ago. Mrs. Newman leaves a widower and a son, 19 years old. She had lived in Los Angeles since 1907, coming here from San Francisco.

**Chamber of Commerce Excursion.**

Plans for a de luxe excursion to San Diego the 26th inst. were announced yesterday by the Excursion Committee of the Chamber of Commerce. The party will travel to the Panama-California Exposition city in a special train. The party will consist of about two days at the southern city. A feature will be a banquet at the Hotel del Coronado the evening of the 26th inst., at which prominent citizens of San Diego and officials of the city and the exposition company will be guests of the Chamber.

**POWER DEAL PENDS.**

(Local Correspondence.)

TULARE, June 15.—Officials of the Tulare County Power Company, the power consumers' co-operative concern, have asked the Mt. Whitney Power and Electric Company to renew their offer made May 19 for purchase of the Tulare company's assets at \$550,000, an offer which was voted down by a majority of the stockholders. It is declared an offer of a \$500,000 bid for the Tulare company's bond issue is so conditioned that little or no ready money will be available. It is generally understood that the Mt. Whitney will renew its offer and it will be voted on this week.

High School Senior Play Tonight at Pomona is Forerunner of Proposed Greek Theater.

(Local Correspondence.)

POMONA, June 15.—An open-air amphitheater with a seating capacity of more than 4000 has been constructed in the shell on the hillside in the foothills of the mountains. The graduation exercises of the High School—a stage forty-eight feet long has been put up, and the seating has been arranged by assembling the rustic benches of the picnic grounds. A canvas has been stretched over the stage to drive the sound out into the audience.

The senior class will present its annual play, "A Rose of Plymouth Town," in the outdoor theater tomorrow night. The graduate who will play Friday evening in the portion of the monologue cleared up by the class play will be given to the city to establish a nucleus for a fund with which to erect a Greek theater in the park.

**OBJECT TO RULINGS.**

School Contractors do Not See Why They Should Get Bonds from Certain Companies.

The question of bonds required of building contractors was the chief topic before the Board of Education yesterday. It was reported that under an ancient ruling contractors are compelled to secure bonds from a select few bonding concerns, all of which charge an excessive rate. The board was inclined to let the matter go over for the coming session to the committee but instructed the secretary to make an investigation and report at the next meeting.

A report of the Building Committee shows that there are sixteen buildings under construction. There are being built at a cost of \$554,521. In addition contracts have been let for thirteen buildings, the total cost of which will be \$617,428. These include the Franklin High School in Highland Park which is to be completed in October. Contracts have been completed for fourteen buildings but the contracts for have not been let.

Upon the reading of a report that a school child had broken his arm while playing on one of the playground fixtures at his father's home, Mr. Quinn said he believed some action should be taken toward eradicating the swings and other paraphernalia used by the children. Superintendent objected to this statement that there are few accidents when the large number of children are considered and in fact there are probably no more accidents now than before the playground fixtures were installed. No action was taken.

**UNDELIVERED TELEGRAMS.**

There are telegrams at the Western Union for Marie Bean, Julian Brown, Harold Dingle, Jas. Beevey, C. H. Geller, Edith Herring, J. B. Jensen, Rev. Jas. W. Kramer, Mr. and Mrs. Thompson, R. E. **RESCUE FOUR IN MINE.**

Men Entombed Since Last Thursday in Missouri Shaft are Taken Out Alive.

(By A. P. NIGHT WIRE.)

JOPLIN (Mo.) June 15.—Four of six miners who were entombed in the Longacre Chapman zinc mine near here last Thursday night, when they broke into a drift of an adjoining abandoned mine, were rescued alive tonight. They had climbed into a pen twenty-five feet above the level of the drift and had escaped an avalanche of mud, water and gravel that filled the workings.

The two others entombed are believed to be far back in the workings and dead.

At a largely-attended meet-

yesterday afternoon, that sec-  
tion of the Los Angeles City  
Teachers' Club which is com-  
posed of teachers of the man-

these are not now eligible un-

The action of the section was

Premonition of the Tragedy  
Near Guadalajara.

"Watchful waiting" in Mexico ac-  
complished the death of another Los  
Angeles man, John Glenn Parmenter,  
who, according to the telegram of  
Secretary of State Lansing, received  
yesterday by Mr. and Mrs. Parmenter  
of No. 1556 West Thirty-seventh place,  
was killed on May 26 by bandits in the  
vicinity of Guadalajara. The  
American Consul at that place made  
the report to Secretary Lansing by  
telegraph and further details have  
been promised.

The parents of the young mining  
man had a premonition of tragedy  
when they failed to hear from him for  
almost a month. During the past  
week the bandits wired the American  
Consul several times but he failed  
to receive any sort of a reply. Previous  
letters from the son gave no  
evidence of his danger and because  
of his pacific temper and his thorough  
knowledge of the people, he always  
feared fairly safe.

"We do not like politics,"  
said a member of the commit-

**Wholesalers and Retailers, Hotel and Cafe Men, Wine  
Growers and Brewers, United for the First Time in  
Ribulous History, Lay Plans to Make Southern Cali-  
fornia the Battle Ground Next Year.**

FOR the first time in the history of California the liquor interests buried their several hatchets and took up arms in harmony and decided to stand together in the coming wet-dry fight.

Both the saloonkeeper stood back to back with the wholesaler, the hotel keeper

and the brewer and for the first time in all the struggles to perpetuate the sale of liquor in California the wine grower

and the distiller became one in deep sympathy with all of them.

Until The Times printed the two

propositions that are to go on the ballot at the general election next year, the liquor interests did not know

that the saloon keeper was to be invited to join a new conference of

all allied organizations next Tuesday afternoon at the offices of the Associated Liquor Dealers in the Higgins building.

The proprietors will form an organi-

sation and plans will be laid at once

to put up a defense against the pro-

hibition element. Southern California will be

the battleground next year, the liquor

men believe, and it is in this part of

the state that the liquor men vitally

interested will insist upon directing

the fight.

Last year the San Francisco and other northern interests dominated the campaign made south of the Tehachapi. The next fight, say the liquor men, will be conducted on lines laid out here and directed by men familiar with the situation in the eight southern counties.

1915.—[PART II.]

ALL QUESTION  
ABOUT REWARD.

BURNES SAYS BURNS  
MADE A TRICK.

## FOR WOMEN AND MEN. Facts, Features and Fancies.

BY OLIVE GRAY.

A PART of Italy—a slice of the Panama-Pacific Exposition—a portion of the most wondrous of the world's fine industries!

That is what you may see, "without money and without price," and right here in our own city.

In that store on Broadway which bears the name of the capital of France, you may feast your eyes upon a collection of laces which it would well repay one to travel across seas to see.

These laces are the finest of Venetian points and Burano, in reproductions handed down through the centuries.

The establishment of this lace industry—or rather its re-establishment—is another monument to the fact that the aged are most valuable to the life of the world—another monument to the art and skill involved in fact.

The art of making the fine of Venetian points had been lost—forgotten, as was supposed; when Queen Margherita of Italy discovered that William J. Burns, a man who is the only son of the Washington bunch, was her first visit to the County Jail charged with the dynamiting of Woman's Missions and Friday will be made to appear before Norton, who intends that he would attend the demand for \$10,000 from the men.

Frederick's former District Supervisor cannot let him have the reward. If it be true that he was asked to state his demands to the Supervisor today to state the reward was actually

paid him, he would be morally obliged to do so.

Women will contend that Captain were promised

Frederick that he would be compensated, so long as he remained Attorney, in return for information relating to the men with whom they were associated.

Some hold that Burns waited

for the supervisors to bring the skilled fingers of an expert, and within the walls of the court room, well toward the age of 90, the secret was preserved. It became the loving task of this most benevolent Queen to revive the industry both for the purpose of handing down the beautiful art of lace-making to the fortunes of her countrywomen. She established classes and then schools for the purpose of renewing the lace-making of former days and after the initial instruction of the old woman who had been in training the recollection of this fine art of creation was progressed without hindrance. A colony was established, under Queen Margherita's fostering care upon the Island of Burano, off the coast of Italy, where some of the most wondrous lace creation there is probably to be found in the world more sought after than the lace of Burano. The interesting girls who have in charge the exhibit in Los Angeles, will tell the story of the art, each in their own way, of the theory that that good is in good faith and that good is the end wanted.

The theory was advanced by the District Attorney that the best way to get the reward is to bring the skilled fingers of blowing up the bodies and destroying the men. The board of supervisors, however, in the case of the two alleged dynamiters, thought it was in the public interest to give the version of the theory that that good is in good faith and that good is the end wanted.

Hamilton thought it was up to the Attorney to answer the question and he didn't want to be responsible for paying

the bill for the trial.

bier of currant or apple jelly and whip slowly until very light. Mix in gently the well-beaten white of an egg. Spread this over the cake-toast, place a candied cherry on top of each slice and serve cold with sweet sauce, preferably maple.

### A Touch of Gaiety.

When you have furnished your porch for summer, choosing the fiber glass, the reedy furniture, the tall reed jardinières, the swinging baskets of red filled with frondy ferns and trailing vines, and have excluded the rays of the sun by means of the blinds which are so useful in making the porch a cool room, then is a few swinging lanterns of Japan or China. The brilliancy of their coloring as well as the inconsequential way in which they swing in the breeze, proclaiming the fact of nothingness, uses that add the wanted touch of color, their very inutility, in fact, makes for restfulness and gaiety.

### Leather.

Just as nearly every woman and some men will be looking to replenish their luggage supply, comes a leather sale which offers, at fractional prices of the usual handbags, travel bags and in fact everything leather which one could possibly wish. Quality unsurpassed, style of the best and most popular, saved to piece in the new leather purse after the transaction.

### Those Lingerie Clasps.

"I were asked," said Evelyn, "to decide which of all the little articles of wardrobe convenience I would be least to relinquish, I believe it would be my lingerie clasps." So much a matter of course have these little gold or silver clasps become, that I had scarcely given them a thought of late. These particular fragrant aromas as of the rose, and when applied to the arm pits it insures that even though there is a slight moisture on the warmest day, there will be no odor. There are scores of applications for this alleged purpose, but not all fulfill their mission.

### Good Housekeeper's Discovery.

For a warm day dessert, simple to prepare and delicious to taste is the following: Toast slices of white or sponge cake, cut into squares and three inches in size. Place in the glass of the egg beater one-half tumb-

ler of currant or apple jelly and whip slowly until very light. Mix in gently the well-beaten white of an egg. Spread this over the cake-toast, place a candied cherry on top of each slice and serve cold with sweet sauce, preferably maple.

Is it this time? A three-story cake? "I found that I hadn't a set of belly tins in the right size," said she, "so I thought I would try placing one tier on top of another, and then another tier, then another layer and another paper and so on." I waited to see if it worked and it did. Each layer of cake came out in fine shape, as fine as if baked in separate tins.

### Millets Modes.

A new and striking sweater is of white and black stripe with belt of black satin.

The latest sports oxford is of mahogany leather, with white felt soles and heel.

The cartridge belt, with its imitation leather, is worn by the Parisian woman.

Silk handbags are much in vogue and black-and-white effects are among the smartest.

Seventeen coattails of silk over-apron fashioned lingerie dresses are a very becoming style.

A large and long black bow attached to the back of a high pleatine is one of the latest fads.

Dame's styles of hair are in pink, white, blue, tan and gold. Shapes are flat and picturesque.

Petticoats are made of pretty flowered material, or of plain white, with ruffles of flowered material.

In a gown of black lace, the collar is given to the back of the shoulders.

There are very high collars with flaring lingerie points at the side. These collars are open at the front.

Little sister's summer hat can be of fine Milan straw in blue, with a wreath of daisies around the crown.

There is no prettier or more becoming finish for the street gown of black than the white organza collar.

Straps to the full skirts have brought in neither the leg-motion sleeves nor the wasp waists.

Smart short coats and full skirts are very generally worn, especially among the younger smart women.

### RAILROADS BUSY.

Exposition and Excursion Travel Keeps Rolling Stock Rolling—Medical People on Route North.

With two expositions in full blast, special train and car reservations and "back East" excursion rates in effect.

The cartridge belt, with its imitation leather, is worn by the Parisian woman.

Invitations have been issued by Mrs. Caswell and Miss Wiltshire for the commencement exercises of Marlborough school tomorrow. The graduates who will receive diplomas and school honors that day are: Katherine Huntington Betts, Gertrude de Marie Blake, Bernice Charlene Carr, Bernice Cass, Constance Cline, Margaret Dinmore, Charlotte Araminta Epler, Marie Francis Henderson, Gladys Hobbing, Ruth McDonald, Clara Alice Moran, Yvonne Le Masney, May Dorothy Oliver, Agnes Ricker, Poladofor, Lila Helen Schmitz, Helen Anita Sinclair, Esther Soule, Dorothy Spence, Frances Griffith, Stevenson, Rosene Eugenie Tripp and Marand St. Pierre.

by that road. This party will arrive here the 27th inst.

In addition, a special train party of members of the American Legion Riders Association is due today over the Santa Fe. This party will leave for San Diego tomorrow and will return here Friday to remain until Saturday.

Nearly 200 "back East" excursion tickets were bought yesterday of the Salt Lake, alone, and about the same number yesterday. Because of the heavy business that road was forced to run its Los Angeles and Pacific Limited trains out of San Jose yesterday.

The Salt Lake also had extra sections of its limited trains, and the Southern Pacific extra cars on all trains.

### MARLBOROUGH.

Invitations have been issued by Mrs. Caswell and Miss Wiltshire for the commencement exercises of Marlborough school tomorrow. ## What can I do to make her stronger?

Your physician has told you that it is simply one of the thousands of cases of "debility."

You have tried certain "tonics" without avail, but you have not yet tried Sanatogen, the true food-tonic.

And Sanatogen may well prove her salvation, for remember that thousands of women who were weak and weary have derived new strength, a new joy of living, from its use.

Olive Schreiner, the famous writer, gratefully claims:

"Nothing that I have taken in years has given me such a sense of vigor as Sanatogen."

And Amelia E. Barr, the beloved novelist, refers to the "marvellous help" derived from using Sanatogen.

This help of Sanatogen is not the false hope of a mere stimulant but the constructive aid of a true food-tonic which gives the exhausted system the natural elements for

TREND OF THE FINANCIAL NEWS.

CRIEVE EVENTS OF YESTERDAY.  
(At Home:) A further drop in foreign exchange outweighed all other developments in financial circles. London exchange fell to 4.75%, while Paris checks touched 5.45-3.5, both of which are new low records. As a result trading in international securities was very light. Purely domestic securities were well held, many showing improvement in price. The week's trade balance shows \$14,256,207 in our favor. Several large manufacturers are refusing orders for immediate delivery except at an advance in price, declaring their plants are now working to capacity.

(Abroad:) Trading in London was light, with Americans a shade under parity. (For details see financial pages.)

A LI THERE.  
These be the days when the sun pines for dark glasses, the rainbow gets sick and quits, and the aurora borealis pales into insignificance. The man with the silk shirt, patterned after Joseph's coat, enthrals the vision.SELF ROBBERY.  
Even generosity may be a fault. Consider how many persons you know who give so freely of their substance when they have anything that they are frequently in want when misfortune visits them. It is no charity to make of yourself an object of charity."GUILTY." YOUR HONOR.  
About once a year, or maybe a little oftener, you strike some friend from your list because he is guilty of what you construe to be a "mean little trick." Bless you, if every man got turned down for this cause there wouldn't be anybody on earth left to speak to anybody else.ON A WORKING BASIS.  
America is very nearly in a position to issue a declaration of independence. We are about to find ourselves independent of imported materials and independent of borrowed capital. Instead of owing so much to everybody else the tables are being turned so where almost everybody else owes us.TOO MUCH INSIGHT.  
Blessed are those who can live upon the clear surface of themselves and meet the world at that point. Too many of us live in an imaginary world because we expect to meet us miles below the surface where we go milling around in a state of internal fever and complications. So many people know so much of themselves that they know nothing about anything else.PLEASE HELP THE BLIND.  
Quit it! Somebody stop them. Those sixty-one beauties have scarcely vanished from our yearning sight and now comes the news that a single Nashville magazine will send us twenty-one beauties from the sunny, vine-clad slopes of that delightful Tennessee in one fell swoop. For heaven's sake, girls, leave us the tattered fragments of a heart.BREAKFAST IN THE AIR.  
Do you have a mocking bird for breakfast? We don't mean do you eat him, but do you hear him? If you will just take a table out under the trees and have your breakfast with a little bird song you will have notes to treasure the whole day long. Then, if you will go out and pick a few roses or berries, you may come away with hands full of thorns, but your heart will be filled with sunshine.THE NEW PLAY.  
George Sylvester Viereck, one of the editors of *The Fatherland*, proves his facility for the mother tongue in the play, "Master Willie Hawes," of which he is co-author. Our critic was so busy pointing out that the piece was good English and bad drama that he forgot to mention that the production at the Burbank this week returns to Los Angeles a charming favorite in Edythe Chapman, whose pleasant personality has for a long time been submerged in the camps of the movies.AN OLD IDEA.  
San Francisco is planning a tremendous central retail produce market. We would not be surprised if one big marketplace is not the answer after all. Small municipal markets do not appear to be what the people want. They do not seem to be sufficiently institutional. The public seems to enjoy one vast meeting-place where they can see all there is to buy and one another besides. This is the spirit of the country town, but the people have grown up with it. Almost the first thing you think about when you remember New Orleans is its French market.DISTINGUISHED ASSEMBLY.  
Many important conventions have honored Los Angeles this year. Few have brought us greater distinction or persons of finer interest than the eighth meeting of the Civil Service Commission's National Assembly. One of its vice-presidents is Mrs. Martha N. McCann, president of the Los Angeles Civil Service Commission and the only woman president of such a board in the world. Mrs. McCann has performed a good service for her city in securing this unusual body of American workers. It is pleasant to note that Los Angeles has provided a brilliant programme of entertainment for its honored guests. We trust they will go away with every promise of California amply filled by a realization of all their expectations.THE CHICAGO STRIKE.  
Two millions of unionists have thrown the big, fat city of Chicago off the street car and told it to walk. Organization has done it just as the worshippers of the "martyred" McNamara said organization could and would do when the time came. The 14,000 street car men were organized—also armed with bombs and bibles—and the 2,000,000 people, who are threading their way through the labyrinthine streets, are not organized. They have been indifferent to the growth of unionism; they let the contractors' men strike and paid no attention. They let union grafters and bullies hammer free workmen over the head and extort all the profits from the independent employers. Therefore the big, fat city of Chicago was easily booted off the street car and will not be allowed to ride again until it produces the blackmail ransom required by Gompers et al.

The proposition is painfully simple. The street car men were at first glad to get the jobs. They were good jobs; they were steady and paid well. Soon the unionists began to get the idea that they owned the lines; they figured that they had the technical owners on the hip. Fourteen thousand employees organized—then suddenly, without warning, without being willing to submit even one plan for arbitration, they struck. Walked out. They demand an increase in wage which, if granted, will mean in the aggregate some \$1,500,000 per year.

And let any unbiased person make a cold-blooded analysis of the business situation in the United States at the present day and see if other than traitorous employees would pick this hour of commercial impoverishment, distress, depression to blackmail any industry out of so enormous a sum. Not since the last panic has there been a time when the earnest co-operation of employees and employers was so necessary as a preventive of bankruptcy.

But it is no regard that the union employees of the street car lines have for their Chicago employers. They have not only quit their jobs, but as usual are wielding the bludgeon to keep the employers from operating the roads.

And now we have the spectacle of an intimidated City Council passing an ordinance forbidding the introduction of strike-breakers. These paternalistic politicians presume to abrogate the constitutional rights of employers by decreeing whom they shall and whom they shall not employ. If these politicians have the right to regulate and control employment by the street car companies, why do not these same politicians order the strikers back to their posts and compel the institution of arbitration? Probably for the reason that usually governs the acts of politicians in similar conditions. They desire to curry favor with the unionists.

An inalienable right of the employer is to pick and choose the men who shall be trusted with the conduct of his business. An inalienable right of the employee is to accept or refuse to work for the stipulated wage.

Simply because they do not care to work for a given wage does not give employees the right to say that other men shall not do so. And the street car owners of Chicago have the same right to import other conductors and other motormen as the striking car men have to refuse to work.

In the first place the street car men had no just grievance. They were well paid.

In the second place they have interfered with the business of a city of 2,000,000 people—interfering with the rights of millions who have no relation with the street car lines, except as all people have with common carriers. The 14,000 car men are inflicting injuries on the whole of an immense city for their own selfish interests.

A sensible, loyal, courageous Mayor and Council would be quick to say to the strikers: "If you men don't want to work, all right. Get out of the way. We'll get men in here who do. We can't afford to have the business of Chicago tied up simply because you think this an opportune time to strike. We don't care anything about your quarrel with the street car lines, but we do care about an adequate passenger service for the people of Chicago."

THE FAMILY ARBITRATOR.  
The office of family arbitrator, chiefly for the use of parents, which the city of Los Angeles is creating and for which Mrs. Margaret Shirch has been tentatively selected, is a highly delicate one. Arbitrator is a good word, but of course what the average married couple really needs is a family goat, who will gracefully take all the blame of delinquencies on either side and make the necessary amends honorable.

Arbitration calls for reason, and it's hard to reason with a reprehensible martyr. Married people have an extraordinary ability to justify their misdeeds—they were always driven to them by the unfortunate actions or dispositions of the other half. A condition which the other half declines to acknowledge.

It is a sad confession, this modern admission that newly-weds require an official city arbitrator.

Theoretically, ethically, the newly-weds should be so hopelessly in love with one another that they are blind to all faults.

But we live too quickly nowadays; we rush the courtship, rush the marriage and rush the troubles. We are a nation of spoiled darlings who are so used to having our own way that the hoary old maxim of "Bear and forbear" is incomprehensible to us.

We see no earthly reason why we should bear anything we don't entirely approve or forbear to do anything that pleases our fancy.

Every household is inhabited by good and bad fairies, and if they are treated respectfully they are willing to shoulder all the blame for the good and bad deeds respectively. But the good fairies have long languished for want of proper recognition.

Members of the household are too ready to take all their approbation unto themselves,

annex all the credit for which the administrations of the good fairies are entitled.

Which has tickled the interest of the bad fairies, who prosper exceedingly whenever a good fairy is ignored. The bad fairies, on the other hand, are indifferent to any ap-

probation and grow brazen in their misdeeds, knowing well that one of the mortals will be called upon to shoulder all their blame.

They can indulge their

naughty bent with impunity and generally manage to have a high old time.

Genuine conubial bliss demands certain ethics towards the fairies. It is good form

to give the good fairies full credit for any generous and pleasant behavior on our part and to blame the bad fairies severely for any misdeeds on the part of our spouse.

We were recently enlightened upon this subject by a young man of five who has given the matter serious study. He was unjustly punished by his mamma on one sad occasion and when she discovered her mistake she was all contrition.

"Oh, that's all right, mamma, don't you worry. I knew the bad fairies were just playing tricks with us," remarked the wise child. "I knew the good fairies would soon make it right."

Wherefore we are of opinion that the official arbitrator will have need of the co-operation of the fairies. The logic of their official recognition is so simple and straightforward. The most irritating happenings can be smoothed away by their useful offices.

DECORATIONS.  
The story of the palms in pots which were intended to make our streets bewilderingly beautiful and which have made them the joke of the year would be screamingly funny if it were not for the fact that somebody had to foot the bills. And of course it's the dear public who pays the cost of the mistake in the end.

A large amount of money has also been expended and is being spent in "beautifying" our good roads by planting wire screens and rosebushes along our drives. But the screens and the scared and dust-scarred rosebushes that they are trying to support are, in many sections—particularly between Los Angeles and Pasadena—so overpowered by a background of large and brilliant signboards that the "decorations" are completely submerged. One can't help feeling that the removal of the billboards that disfigure our most costly driveways and obscure our finest scenery would have been a far more effective means of beautifying our highways. Rosebushes, palms or any other plant are only an ornament when in a thrifty condition and well cared for. To keep thousands of plants well watered and cultivated along our country roads in the summertime is a big and a very costly undertaking. To remove some of the blemishes in the way of unsightly signs, weeds and billboards would be a much less expensive and a much more effective method of adding to the delight of our wonderful roads and our beautiful scenery.

DIVISION OF HIS COUNTRYMEN OVER THE RIGHTS OR WRONGS OF FOREIGN NATIONS.  
Because he was always consistently loyal to his party he was consistently loyal to his country. He was strong enough to place patriotism above party because he was strong enough to place party before self.

And so today the American people are learning to look up William Howard Taft as a man of ripe judgment, flawless honesty and steadfast devotion to the public welfare. From foreign countries, too, come tokens of his worth. Alfred Moseley, the English international economist, an acknowledged world authority, states: "If the arbitration treaties brought up in America during Mr. Taft's administration had been ratified this war could have been prevented." We will go further. We will say that if universal peace is ever brought about it will come through the practical wisdom and business ability of statesmen like the fiber of William Howard Taft; it will not be accomplished by hysterical sentimentalism.

UNCLE SAM A FREIGHT CARRIER.  
Without an act of Congress

President Wilson is determined that the United States shall become an ocean transportation company. Two or three months ago Governor Harrison of the Philippines informed the administration that the merchants of the Philippines were, on account of the shortage of ships, unable to export goods to the United States or elsewhere. Secretary Daniels was firm in his refusal to allow the naval vessels of the United States to be used as common carriers. The Secretary of War was more compliant. He appealed to the Judge-Advocate-General to find a way by which army transports returning from the United States from the Philippines might be loaded with merchandise. That resourceful official gave an opinion to the effect that army transports could bring merchandise here from the Philippines, provided such merchandise were the property of the government. Whereupon Secretary Garrison of the War Department informed President Wilson that "if the Philippine government should take over such merchandise as might stand in need of exportation and send it to the United States in army transports the law would not be violated. In this case, of course, the United States government would look to the Philippine government for reimbursement. The latter would make such arrangements with our wonderful roads and our beautiful sceneries as to it seemed best."

Thereupon an order was issued to the

effect that army transports returning to the United States from the Philippines may bring with them limited quantities of merchandise. The military authorities at Manila have been directed to invite proposals from commercial lines for this transportation, and in the event of failure to secure replies each army transport may carry not to exceed 3000 tons a month. This traffic, of course, is not to interfere with the free use of the transports for government business.

And so Uncle Sam is in the freight-carrying business, notwithstanding the filibuster Senators defeated the ship-purchasing bill.

GIVING IN FAVOR.

It has not been given to many ex-

Presidents to command even more respect and attention out of office than they did while filling the highest position in the gift of their countrymen. That honor has fallen to William Howard Taft, whose true worth is being every day more and more appreciated, whose thoughtful utterances are ever reaching a more extensive audience.

He has expressed himself on many mat-

ters of public importance since he handed over the reins of government to the present occupant of the White House, and not President Wilson himself today so dominates the thoughts and sentiments of his countrymen.

When William Howard Taft speaks he speaks with the sober tolerance and direct sincerity of the man master of his son and conversant with his subject—a true conservative, resolved to rush at no premature conclusions—a radical (in the literal sense), determined to get at the root of a question before giving his views a voice.

Unlike the President's first lieutenant, he

rallied to the support of the Democratic

administration as soon as a possibility of

foreign complications threatened to involve

the country in international difficulties.

Which has tickled the interest of the bad

fairies, who prosper exceedingly whenever a good fairy is ignored. The bad fairies, on the other hand, are indifferent to any ap-

probation and grow brazen in their misdeeds, knowing well that one of the mortals will be called upon to shoulder all their blame.

They can indulge their

naughty bent with impunity and generally manage to have a high old time.

Genuine conubial bliss demands certain

ethics towards the fairies. It is good form

to give the good fairies full credit for any

"WHY THE DEVIL AROUND THE STUMP."

Every crack will make him jump,

Glory, Hallelujah!"

Under Obligations.

[Chicago Ledger:] Vagrant: Listen,

Judge: I'm a hobo, but this town was named after my great grandfather!

Judge: Impossible.

Vagrant: But true! He was named in 1776, and this town wasn't on the map then!

Before green apples blush,

Before green nubs embrown,

Why, one day in the country

Is worth a month in town.

## MOVEMENTS IN SOCIETY.

Miss Ada May Forbes,

Who will become the bride of Sanford King Taylor of Alton, Ill., at a fashionable wedding at the Church of the Angels this evening.

**T**IS with genuine joy that society versatility as a conversationalist may welcome to its inner circles so well be imagined, especially along the charming and interesting acquaintance as Mrs. W. M. James of Yucatan, who is the house guest of Mr. and Mrs. C. O. Shattock of 115 St. Andrews boulevard. She is one of the most delightful visitors Los Angeles has had this summer. Mrs. James, however, in terminating her pleasant stay within a few days, going to San Francisco, so sympathetically relates the information gleaned from the many years she has lived abroad that her

is invariably prevails in the decorative arts.

### For Texas Matron

Mrs. W. Fins, a prominent society and clubwoman of Texas, whom Los Angeles is to have the pleasure of entertaining for a month, being the house guest of her niece, Mrs. T. S. Ely of No. 615 St. Andrews place, will on Friday furnish the delightful inspiration for a luncheon of twelve covers which Mrs. Ely is giving in imitation of the manners for Mrs. M. L. Turner, Miss Mabel Falzy of Texas, Mrs. C. Q. Stanton, Mrs. David Peacock, Mrs. Gilbert King, Mrs. W. K. Reese, Mrs. J. A. Vaughan, Mrs. J. K. McLean, Mrs. John Bannister, Mrs. Chester Thompson, the honoree and hostess. The table will be done in an exquisite pink shade with sweet peas and maidenhair fern fronds, accented with beautiful pink carnations, with delicate pink shaded.

Mrs. Fins is an intimate friend of Mrs. Percy V. Pennybacker.

At the close of her visit here, Mrs. Fins and Mrs. Ely are going to San Francisco, the picture showing on to Yellowstone Park and home.

### Small Luncheon Coterie

Mrs. T. S. Lynn of London and her talented daughter, Miss Freda Lynn, who are entertainers of the Thomas J. Flemings are to be entertained today at a luncheon of eight covers by Mrs. A. H. Busch of No. 2715 Portland place. But for recent indisposition of the master of the affair would have been much larger, though it gives promise of being all the more enjoyable on account of its selectness.

### Box Party

Mrs. William S. Hook of No. 2617 Menlo avenue entertained dinner guests Monday night, taking them later to the Morosco. The personnel numbered: Cecil Fanning, Mr. and Mrs. H. R. Turpin and Mr. and Mrs. William S. Hook Jr.

### Big Sister Happy

Kathrin, the much-admired 2-year-old daughter of the R. D. Bronson of 2617 Menlo avenue, is just about the most important personage in the city since Saturday, when she received a precious bundle of femininity from Babyville as a captivating live-doll playmate, both genious by nature, she is sharing her joy with her grandparents, Mr. and Mrs. R. Vincent Day of St. James Park.

### Pfeiffer-Carroll

The marriage of Miss Nelle Margaret Carroll, daughter of Mrs. Lulu Campbell Carroll, to Harry Asbell Pfeiffer was solemnized at 5:30 o'clock Saturday evening in the Church of the Angels, the service being read by the Rev. Harry Thompson in the presence of several guests, among whom from Colorado Springs and Des Moines former home of the bride.

The altar was elaborately decorated in pink and white, with Enchantress carnations and feathery Gynephila resting on a bed of roses.

A pale silk aisle was garlanded in pink tulips and the blossoms. The bride's uncle, John Marshall Jordan, gave her into the keeping of the bridegroom. As the strains of the familiar wedding march sounded in the mind of the young Miss Hazel Pfeiffer, attired in a gown of palest green crepe de chene and Chantilly lace, wearing a white hat and carrying an ages shower of bridemaids, while William Carroll and Esther Bartlett all having complimented their friend with pretty pre-nuptial courtesies.

Tomorrow evening following rehearsal of the wedded party is to be entertained at an elaborate dinner.

Mr. Church is the son of H. A. Church of Victoria Park and vice-president of the Montebello State Bank. Following the honeymoon to be spent in the north, the couple will live at No. 1502 Victoria Park where they will be at home to friends after September 1.

### Fraternal Dance

A dance was given Saturday evening at the Gamut Club by the members of the Gamma Alpha Chi fraternity.

### Commemorative Festivities

The junior dance at Huntington Hall last night brought together a number of school girls and their friends. The precious young room where Miss Howell and the young ladies received was decorated with a frieze of greenery and baskets of Cecil Brunner roses, the library in cornucopias and the ballroom in penants and school trophies.

### Red Cross Benefit

The French Red Cross benefit to be given at the Little Theater Tuesday evening at 8:15 o'clock is under the patronage of a splendid list of prominent society leaders, including Mrs. John Percival Jones, Mrs. Henry H. Hobart, Mrs. Sam Hamer, Mrs. Hugh Livingston MacNeil, Mrs. George Fenton, Mrs. Roy P. Jones, Mrs. Frank S. Hicks, Mrs. Mary Wilcox Longstreet, Mrs. L. N. Brunswick, Mrs. R. J. **June's Auditorium.**

"The Clansman" in its second week continues to draw big crowds estimated to have seen the big film.

"Judith of Bethulia" is the third offering at Clune's this week. This is one of Griffith's masterpieces, and is shown on the screen photo-drama.

Blanche Sweet is at her best in "Romance," and other artists are Henry Wilhelmi, Charles and Lillian Gish.

The motion picture is a powerful motion picture, and is staged in a spectacular and stirring manner.

"When It Strikes Home" is to be divided into groups of

entertainment and re-enacted under a mammoth tent at the Bush gardens. Refreshments over a scenic and excellent headed by George Washburn, star of the Winter Show; Muriel Ostrich and William.

The added attraction will arrive here each day will be the fourth and last installment of the new serial "The Goddess."

"The Isle of Glances" will be in the attraction at the Bush gardens this week. It is full of "per" and excitement, not to mention comedy.

There is a very pretty charm in all the latest songs and dances featured.

"Minton Play."

Gov. Whittemore of New York, together with his party, attended "Minton Play" yesterday afternoon and they expressed themselves much pleased with the presentation.

There has been a great deal of interest in this production since special performances were given in the near future, on Tuesday and another on the following. Members of the Los Angeles Board and their attendants attended the opening night, and members of the various societies will go to the opening.

It was affixed in white lettering on the door.

It is said to be the earliest and most interesting schoolmates students High School.

Howard Wilson, 55 years old, of East Colorado street, who has a residence in this city, died after a lingering illness, a widow, who has been away from active business, Louis, a daughter, Mrs. Margaret and Richard, a son, and a daughter, Mrs. Wilson and Richard, sons, were graduated from Princeton University recently. Young Wilson was rendered by Mrs. Wilson at the piano and Mr. Howard Wilson, violin. Mrs. Howard Wilson sang "I Love You."

**CITY BRIEFS.**

Mr. Wilson Stewart and Richard, Pomona boys, were graduated from Princeton University recently. Young Wilson was rendered by Mrs. Wilson at the piano and Mr. Howard Wilson, violin. Mrs. Howard Wilson sang "I Love You."

The police think the man was murdered, as no weapon was found near the scene of the tragedy, and that robbery was the motive, for there were no valuables on the body except a pair of pearl cuff links.

**LOCAL CORRESPONDENCE.**

June 15.—The amphitheater of Pomona was thronged last evening with an audience of 2,000 persons, as to witness the 1915 class play, "The Hoopoe." In order to secure the services of the class play, the president of the commencement week, the author, spent six hours with a tribe of Hopi Indians, who gathered from all parts of the country to perform the realistic setting.

At the reunion luncheons for non-resident alumni, held at noon at the amphitheater, more than 200 Pomona graduates were present.

Informal alumnae discussions filled the programme of the alumni meeting Holmes Hall chapel, held during the early part of the afternoon. One of the interesting topics was that of Pomona's stand for the leadership in athletics, which has been the bone of contention among Southern California colleges during the past year. The consensus of alumni opinion was that Pomona's stand for clean athletics, followed by the annual alumnae-varisty baseball games, preceded in turn by the well-attended president's reception on the lawns of the library.

The graduating classes will be held at 10 o'clock tomorrow morning at the Claremont Congregational Church. The commencement speakers will be Byron S. Phillips; Edwin M. Landale, Hugh L. Clary, Nettie E. Pike and Queenie Santikian.

The programme of the senior class presented the usual portrait and athletic groups of the college, and followed this with an announcement that came as a complete surprise—that \$1,200 had been subscribed by the class of 1915 to the town's fountain, the Mabel S. Bridges Memorial Hall of Music, which was dedicated Saturday evening.

**LOCAL CORRESPONDENCE.**

RIVERSIDE, June 15.—The community awoke today to one of the most startling instances of misplaced confidence in its history, when, after Honoring Nye Oberg, president of the Poly High student body, and doing him every possible honor for the much-heralded achievement of winning a trophy for delivering the best peace oration before some organization of national importance, it develops that no such contest was held and that young Oberg was only working a hoax.

Oberg confessed the whole thing before the student body this morning, admitting that the gathering at Kansas City, where he was presumed to have defeated thirty-six contestants within an hour after his arrival on a fast train, was the product of his fancy, and that the trophy which has been so proudly exhibited at various functions in the city was fashioned by a silversmith under Oberg's direction.

Especially humiliated are the members of the Peace Society, who banqueted the vaunted oratorical champion at the Mission Inn: the citizens who made up a purse to send him East; the members of the student body who voted him as the one who had done most for his school for the current year, and pastors of local churches, who have attracted large audiences to the city.

THE LOS ANGELES TIMES will award \$5000 in prizes to the persons receiving the greatest number of CREDITS during this PROSPERITY AND TRADE CONTEST which ends June 26, 1915. In case of a tie, that is, if two contestants should receive the same number of CREDITS, each contestant will be awarded exactly the same kind of a prize.

Any person, excepting employees of THE TIMES—or their families—can enter this contest, by simply filling out the Nomination Coupon, on this page, and filing it with the PROSPERITY AND TRADE CONTEST DEPARTMENT OF THE TIMES.

The Co-operating Retail Merchants will issue with every cash purchase of five cents, or over, their regular sales slip, or a CREDIT COUPON, supplied by THE TIMES, which, when presented at the TRADE CONTEST DEPARTMENT, either in person or by mail, will have a value of ONE CREDIT FOR EACH CENT. These sales slips must be presented at the Trade Contest Department within SEVEN days from the date of issue, in order to be credited to the contestant. Where the contestant has a charge account with any of the Co-operating Merchants, the CREDIT COUPON will be issued when the monthly bill is paid and the receipt presented at the TRADE CONTEST DEPARTMENT. All such received bills will be returned to the contestant.

The labels or trade marks of the various articles mentioned in the manufacturers' and wholesalers' announcements will have a special CREDIT value. This special CREDIT value will be allowed on only those articles mentioned and all labels or trade marks other than these will be returned to the contestant. Care should be taken to send in only the correct ones.

THE SMILE STORE

[Jude Mortimer Lewis, Jr.] Our smile will be the most beautiful place, due east and west, for the twenty-eight highest contestants—now under

the mind. We cannot reach the top, but we can take a step forward.

Sometimes we are not able to do what we want to do, and when we have done so, our smile is on the job.

Our smile is the best, and when our tomatoes are ripe, we may search our pockets for the twenty-eight highest contestants—now under

the sun. Our smile is a beautiful brass finish reflector, and when our collar so it hangs down, it may kill us.

It is a happy day when we get our smile back again.

Smile to the world, smile to the sun.

PARTICIPATE IN THESE SPECIAL PRIZES.

Speculative Dealing Moves Contrarily, War Shares Making Gains While the Usual Leaders are Irregular—Copper and Lead Hold to Their Latest High Prices.

[BY A. P. NIGHT WIRE.]

NEW YORK, June 15.—In its broader and more substantial aspect today's further depreciation in foreign exchange, with new low records between this center and London and Paris, outweighed all other financial developments. Demand sterling declined 47¢88 against the previous low record of 47¢11; and French checks or demand bills on Paris, sold at 54.45%, a break of 1% from the previous record.

Stocks moved contrarily throughout the market. War shares, making further gains, while the remaining issues, particularly the railway division, were irregular when not heavy.

With the exception of America, the leader from start to finish, the transactions in that stock far outstripping any other issue with a maximum gain of 4 points. Others in the same class rose steadily, though not so much ground in the later dealings.

Reading's heaviest, together with other shares in the international group, were associated with the slump in exchange which was largely due to have caused a recurrence of foreign selling of these issues. Coppers were not spared, but the pressure which became more general at the close, took some of the heat off, but just enough in the later dealings.

Resumption of dividends by the Great Steel Mining Company offered further evidence of a betterment in the copper industry. Large sales of the refined metal were again reported at 20%. Lead held steady at its new high price of 45c and advanced from leading steel centers, and most manufacturers of wire and bars as refusing orders for immediate delivery, except at a premium over current prices.

The bond market was irregular, with weakness in some of the convertible copper issues. Total sales (not including aggregated \$3,012,000) United States bonds were unchanged on call.

THOSE SPECIAL TAXES.  
Arrangements Under Way for  
Work by Government as Law  
for Payments Needs.

Internal Revenue Collector General is arranging to care for the same taxpayers who will be in his office to discharge their obligations that must be paid by June 20. These taxes consist of the income tax assessed upon corporations and individuals, taxes required to be paid by liquor dealers, wholesale liquor dealers, in omissions and the special tax recently imposed upon doctors, dentists, others handling drugs, coming within the scope of the Harrison Bill. This tax must also be paid by tobacco, proprietors of motion picture theaters, brokers, stationers, etc. For the named group special tax is collected for the period July 1, 1915, to July 1, 1916, only. From July 1, 1915, as the general revenue laws providing for taxes will extend further.

Blank forms of application have been issued to the collector to all those persons who appear to be due, and payment may be made as soon as possible. It must be imposed for failure to pay the tax imposed. No taxes are permissible.

## FIREMEN ATHLETES PREPARE FOR DUAL CONTEST

Great  
HIGH-JUMPING STAR IS FOUND.

Clears Bar at 5 Feet 8 Inches  
with Much Ease.

Several Weight Men Making  
Good Marks.

Two Platoons Make Contest  
Possible.

The firemen of Engine House No. 11 are about to have their pictures plastered up in the hall of fame. And the reason for all this is a real honest-to-goodness track team.

Up to the present time the athletic firemen have had very little opportunity for practice. They have been on duty all the time and the men have made training hard and any kind of meets absolutely impossible. Now, however, that the two-platoon system is a settled cinch, there will be good chances for competition and some exciting inter-companyhouse track meets will be the result.

THREE HEROES.

The men of Engine House No. 11 were wise enough to anticipate the introduction of sports into the fire life. They began to look around among themselves for some possible stars, and finally decided to have a week to pick out the best ones. The three planets of greatest magnitude were A. E. Careto, W. J. Lynch and E. G. La Fon.

Mr. Careto showed a leaning toward high jumping, took the bar as his favorite pastime. He managed to get in a little practice about twice a week and soon developed into a first-class regular. He goes over the rod at 5 ft. 8 in., and could go higher except for the fact that the bar is set at that point. And he does this in his regular clothes, ordinary shoes, on a common vacant lot, and without any aid to light in. Taking all these things into consideration, he is some sort of a star. In a chain of events and some of the other track accoutrements, he ought to jump wall, figure it out for yourself.

TOUGH WORK.

"Conditions around here aren't ideal for jumping," admitted Careto yesterday afternoon. "There's a sign board that makes me impossible to run under than those steps and this is a decided nuisance. Then you're always afraid of lighting on your face on the sidewalk if you clump too far. And besides this, the posts are so low that there's no way to jump over them, how high you really do go. The only thing to do is to have some one stand alongside and sight underneath you and guess how far you miss the bar. According to this method, I've gone seven feet."

The strong man of the department is W. J. Lynch, and he can pull off any of the field events with equal ease and agility. His long suit is the punching bag. The way he handles the unfortunate is sure to be behind. His important position will be all-around man of the team and he will be called on to take three or four first places, just as they happen to be needed.

HUSKY GUYS.

The best shot-putting bet is E. G. La Fon. This hero has the ability of a pound of fair action, the back lot of the ensemble. And he has very nearly demolished a brick wall which stands in the way of greater throws.

There have been no meets so far in the history of fire athletics, but every town in the area are predicted for the future. The other houses are waking up and will have some excellent teams in the field. And there is a rumor that a championship struggle between the firemen and the policemen will conclude each track season.

If so, gentlemen, hurrah!

SLOUFEDS WIN  
FROM NEWARK, 1-0.

(By A. P. NIGHT WIRE)  
NEWARK (N. J.) June 15.—St. Louis beat Newark in a pitcher's battle today 1 to 0. Rain stopped the game in the eighth inning. Score: St. Louis, 1; Newark, 0. Errors: 4. Newark, 2; St. Louis, 1. Batters: Davenport and Hartley; Ruehbach and Rariden.

JOE JACKSON  
MAY GET HURT.

Base runners are complaining that Joe Jackson gets at the first base. They don't think Joe means to block them, but that he doesn't know the trick of avoiding them. It is predicted that Joseph will be bowled over one of these days crippled for life.

KETCHUM IS  
EASY WINNER.

Such is Baseball.  
SLIM LOVE'S FEET GET  
TANGLED DURING CRISIS.

BY HARRY A. WILLIAMS.

SAN FRANCISCO won, 3 to 0, with Slim Love pitching and Slim has nothing in the world to blame but his own feet. Positively no other feet can be dragged into the controversy, not even those of Spider Baum, who pitched for the visitors.

There was perfect co-ordination of effort between Baum's head and feet, while Slim kept disagreeing at the two extremes. Baum has the polished head and feet of the trained athlete. Slim's head is all right, but his feet wander around like a couple of mud scows without a rudder. His heart

was in the right place, but his feet were not. He would have some play clearly fixed in his mind. Then, when he started in to execute it, he would find that his feet had strayed away in the opposite direction.

It was impossible for him to keep his eyes on his feet, and in that way

keep track of them. If he tried to watch his feet all the time he would miss something important. Slim's feet never have been very dependable, but yesterday they were more wayward than usual.

Love's feet deserted and went over to the enemy for the first time in the crisis. With the ball in his hand, he had spotted something wrong with Slim's feet and galloped out in the diamond to call attention to the fact. He was joined by Phyle and Toman. An exhaustive examination of Slim's feet followed, and he was instructed to correct the evil, whatever it was.

Slim explained that he could not be held personally responsible for any wanton acts which his feet might commit, as he has no control over them.

However, the knowledge that his feet were betraying him weighed heavily on his mind and he walked Schaller. Then he tried to watch his feet and throw to first at the same time. The result was a bum heavy foul tip. Schaller and Heilmann scored him from that point.

SECOND OFFENSE.

WASHINGTON AND BEARS  
TO MEET ON GRIDIRON.

BY DIRECT WIRE—EXCLUSIVE DISPATCH

SEATTLE (Wash.) June 15.—With a tentative contract signed, the University of Washington will meet the University of California in two games of American football during the 1915 season, one game to be played in Berkeley and one in Seattle.

Manager Stroud of California arrived in Seattle Monday night. Although it was understood his mission was concerning possible negotiations with the athletic authorities of the University of Washington, nothing of the character was made known until Tuesday afternoon.

The faculty gave its sanction to the two games in each city with the qualification of an eligibility rule, as proposed by Stroud, and an hour rule proposed by the Washington faculty.

Greenwell will present his negotiations formally to the Faculty and Student Athletic Committees of the University of California. It is believed he will encounter no difficulty.

Stroud said tonight: "I believe the action taken is probably one of the most momentous in the history of collegiate athletics, because it welds together the leading schools of the North Pacific and South Pacific on the gridiron."

The Los Angeles Country Club is exuding happy anticipation. The golf autocrat encourages them with the ultimatum that our ten best men could beat the ten best men of any club in the country.

The president of the Golf Association, who is regarded as an unimpeachable authority on the subject, has estimated each man's probable score. Jack Jenkins may achieve 2 down. He is going strong and made a 76 in his first round. Arnie Jacobsen putted at 3 down. He is practicing over the course today for a final study of the lay of the greens.

Frank Edwards, who has recently found himself again, and who made 74 in his first round, may not do better than 5 down, because his occasional brilliance is not of the regular variety.

T. H. Seaver will probably do 5 down or better. He has a 76 to his credit on Sunday and is playing more steadily than ever. He is down.

Cash is estimated at 4 down. He maintains that marked improvement

has been made in the last few weeks.

In Los Angeles to pack the park on June 25.

Hogan had two faults, if you wish to call them such—over-loyalty to his friends and a liberality that knew no bounds. He died a poor man. More than that, he died heavily in debt.

Major Gertey will declare a half hour in the afternoon and the fans of that city will attend in a body.

Practically every sportsman in Los Angeles county will be out to pay a last tribute to dear old Hap. Ground rules will be in order.

George Wheeler and Artie Ross, like schoolmen of another era, unexpectedly bobbed up at Washington Park yesterday. Both are completely out of work.

Wheeler, who has been working in the oil fields since leaving the country four years ago, finds oil business more dependable than baseball.

Wheeler dropped down from his ranch in the Yucca Valley. George was invited to the surprise, and on his way setting up early in the morning.

Wheeler and Ross came to Los Angeles back in the early part of the century to play ball for Jim Morley.

The mention of their names revives memories of Doc Newton, Dummy Hoy, Dummy Klein, Eddie Householder and others who pioneered here in a baseball sense.

Referee—Edward A. Gertey, Mayor of Venice; Charley Chaplin.

At 1 p.m.—Grand review of officials, participants and bands and filming of spectators.

At 1:15—100-yard dash by ball players.

At 1:20—Accuracy throwing, home plate to second base.

At 1:25—Circling bases in attempt to equal record of 13 4-5 held by Cobb.

At 1:40—Fungo hitting against record of 481st, 3m., held by Walter Johnson.

At 1:55—Relay race between teams picked from two clubs.

At 2—Bunt hit and run to first base. Record 3 1/2s., held jointly by Jack Thoney and Jimmy Austin.

At 2:45—Start of games.

Souvenirs and refreshments will be sold under the direction of the Drill Corps of B.P.O.E., No. 99, with Charley van Pelt in charge.

### AT THE STAGE DOOR

BY GRACE KINGLEY

Miss Billie Burke, coming to the Mason next week, ought to be an adept at "popping the question" by this time. She has done it in practically every play she has appeared in since she became a star.

She does it in "Love Watcher," the piece in which she made her stellar debut. Then she came right out and asked a young man to marry her. In "Mrs. Dot," her next play, she was a wealthy young widow who had hounded an impudent fellow into promising to her. "Same," she was a Belgian maiden who encouraged a young Frenchman so brazenly that he just had to send for his father to come and make the necessary arrangements with her papa. In "The Runaway," the artist who was to be the star of the show, she said that she that his conscience wouldn't let him tell her what was on his mind until she up and told him she wanted to marry him.

"The Mind the Paint Girl," she had two men make her desire love to her, but when it came right down to cases she had to tell the young lord how happy she proposed to make him. In "The Amazon," well, that was the one exception to the rule. In "The Land of Promise," she threw herself at the feet of Captain Barnham. And in "Jerry," the comedy in which she will be seen at the Mason during the week beginning Monday evening, if she doesn't exactly "pop the question" herself, she gets the man in such a position that he would be less than a man if he didn't ask her to marry him.

Now See Film.

The Sunset Weekly, a moving-picture film depicting current news and sporting events and other matters of interest in Southern California, was introduced to the Southland today. The initial reel was completed yesterday and went to "press" last night. Hereafter it will be released each Monday. Sunset Weekly is to be a "real" newspaper.

It is being produced by Lloyd E. Thrasher, a western newspaperman, and Frank Morris, formerly of the American Press Association and Pathé.

Quick Change.

Geraldine Farrar, the world-famed diva, was yesterday transformed into the world-famed motion-picture star. And all in the twinkling of an eye.

"Presto!" Cecil de Mille, director-in-chief of the Lasky Company, waved his short-pipe wand, and the thing was done.

Mrs. Farrar yesterday began work on her first photoplay, by William C. de Mille, being a Spanish story founded on the plot of an old opera. A whole street in an ancient Spanish village has been built at the Lasky studio, and here Miss Farrar, in the grub of a Spanish peasant girl, is enacting her first scenes for the camera.

And yesterday she refused to go to lunch until 3 o'clock!

I love the work in the big outdoors, she exclaimed in her own delightfully vivacious way. "Why it's just like playing at Indians and Spaniards and things when we were children. No, I'm not hungry. Please let us finish just this one scene!"

Social Sandwiches.

Miss Farrar is delightfully democratic. Yesterday she insisted on the whole company eating lunch together out in the open, stage carpenters, cowboys and all.

New Face Card.

Pedro de Cordova, a well-known character actor, has been brought West by Mr. Lasky to play the heavy leads in Miss Farrar's pictures.

Fascinating comedy artist.

### Slim Loves Feet.

(Continued from First Page)

**feet** in the seventh. In covering first on Baum's drive to Dillon, he discovered all too late that his feet had mutinied. He whirled around and tried it again, but by this time his feet were beyond all control. Baum was safe, and Bodie came along a game, lassoing the second two with a triple. But for the failure of Slim's feet to stand the supreme test of touching first, the Seals would have been skunked in that round. Dillon, however, must share the responsibility with Slim's compatriots. Pa could easily have allowed Bodie to get away, but being a kind-hearted man he tried to give Slim a put-out and himself as an assist. As things turned out, all that he gave Slim was an error.

Pa's mistake at first base is explained by the fact that Jack Baum is in bad with a busted elbow.

The doctor mixed up a bucket of mortar and put Jack's arm in a plaster cast. If this does not do the business, the doc will build a steel and concrete retaining wall around the arm.

**ROY IN CHARGE.**

Roy Corrigan, in charge of the San Francisco club in the capacity of acting manager, Harry Wolverton is in a San Francisco hospital with a couple of ribs jammed through his liver, and otherwise pretty badly disorganized.

Harry recently had an argument with his manager, and a fast automobile came out on top. The next time he is going to pick out something easier and tackle a buzz saw.

Corrigan availed himself of a manager's first prerogative by not playing.

A cold in the arm is the technical reason given for not playing. He is a member of the arm remaining, though spry, and otherwise pretty badly disorganized.

Harry recently had an argument with his manager, and a fast automobile came out on top. The next time he is going to pick out something easier and tackle a buzz saw.

**NEAR RALLY.**

Bill Lear played short, and did a good job of it.

He showed a crafty, intelligent game, and his work was especially impressive in times of pith and moment. He fanned nine, and most of

them when it was important that somebody be fanned. He would let one or two of the home blocks get on base, and then tie the next gun into knots. Once, when Bodie did not fail to fan one or more batters. And he didn't pass a living soul.

Schaller started out rather roughly by doubling in the first with one gone. He took third on Bodie's out.

Hoffman was walked. Downe sounded the pill to do the same. McMillen charged back and made one of his characteristic game-saving catches.

steps by tossing to Love. Slim fell over again, and overstepped the base with the other. He saw his mistake, and started back to try it over again. Sad to relate, Baum had both feet on the base by this time and there was no room there for Slim's No. 17a.

**PING'S TRIPLE.**

McLean soaked a single to left, and once more second. He did the third when Schaller forced McLean. Ping then rose up on his hind legs and tore off a powerful triple to right center, chasing both men across. Hellman popped to McMullen.

The Angels sought to place a rally before the public in the ninth, but were not entirely successful. Zeb got a single, and then the rally ended. Bolesfield right. With things in this critical shape, Jack Ryan, monarch of emergency maulers, was sent in to hit for Metzger. The monarch was the victim of a called third strike.
